Hotels and Motels Market Summary, Competitive Analysis and Forecast, 2017-2026 (Global Almanac)

Summary

Global Hotels & Motels industry profile provides top-line qualitative and quantitative summary information including: industry size (value and volume 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the industry.

Key Highlights

- The hotels & motels industry consists of establishments that provide paid lodging and full guest services, typically with a continuous staff presence. In the case of motels, this includes off-street parking facilities, but not necessarily meal services. The industry is detailed in both value and volume terms.
- Industry value consists of the total revenue generated by (a) rent that a guest pays for an occupied room and (b) other revenues, including revenue from food and beverages, telecommunications, health and leisure operations, and car rentals.
- Industry volume consists of the number of establishments in a given country that provide paid lodging and full guest services.
- All market data and forecasts are represented in nominal terms (i.e., without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2020 annual average exchange rates.
- Forecast figures presented in this report are calculated using crisis scenarios for the market. The length of the pandemic and restrictions introduced by various countries are still difficult to predict. Many governments had introduced the national lockdowns and temporarily banned sales of products that are deemed "non-essential". As the length of the pandemic and its impact on this market is not certain, the data used in this report has been modeled taking forecast impacts on national economics into consideration.

Scotts International, EU Vat number: PL 6772247784

- The global hotels & motels industry had total revenues of \$534 billion in 2021, representing a negative compound annual rate of change (CARC) of 7.6% between 2016 and 2021.
