Report description:

Direct selling in Greece suffered during the pandemic due to restrictions, and saw a reinforced decline in retail current value sales that had been underway before coronavirus broke out. In 2022 direct selling recorded positive growth in current value sales for the first time during the review period, but this trend is not expected to continue in the future. As local consumers are increasingly comfortable with online shopping, e-commerce is slowly taking over direct selling. As a result, many di...
