Report description:

In 2022, tissue and hygiene continues to benefit from raised awareness of hygiene in and outside of the home. Meanwhile, categories such as nappies/diapers/pants and sanitary protection are already well developed and although these products are already seen as essential, demand is somewhat underdeveloped in categories such as toilet paper, wipes, and adult incontinence. This means significant room for further sales growth.

Euromonitor International's Tissue and Hygiene in Oman report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues.
