Report description:

Retail volume sales saw decline in 2022 due to the adverse economic conditions in the country. Soaring inflation has heavily impacted disposable income making these products unaffordable for some consumers. As a result, parents resorted to purchasing these products less frequently or buying larger packaging to last longer, which negatively affected retail volume sales. Price sensitivity has been an issue for several years in wipes encouraging consumers to seek out more affordable products and pr...

Euromonitor International's Wipes in Turkey report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
