### **Report description:**

#### **KEY FINDINGS**

The South Korea anti-acne dermal patch market is set to project a CAGR of 7.42% during the forecast period, 2023-2030. South Korea is accredited with introducing acne patches to other regions. Also, K-beauty products are increasingly preferred globally due to the use of traditional ingredients. Such aspects are estimated to benefit market growth in South Korea.

#### **MARKET INSIGHTS**

In South Korea, the acne variety with acne chemicals is the most prevalent. Accordingly, the growing prevalence of skin conditions like severe acne and pimples is set to propel the anti-acne dermal patch market in South Korea. Another major growth driver is the surging demand for instant acne treatment and medication. In addition, the rising anti-acne dermal patch demands among teenagers and young adults have boosted their adoption. Moreover, product launches by prominent brands contribute to the increased market prospects of South Korea. For instance, Hero Cosmetics, a popular Korean brand, launched the Mighty Patch for chin breakouts. In addition, in September 2021, COSRX launched the upgraded COSRX master patch intensive. It is an upgraded version of the hydrocolloid patches that form an air-tight, healing, and protective seal around the blemishes.

#### **COMPETITIVE INSIGHTS**

Some of the prominent companies operating in the market are COSRX, Hero Cosmetics, Sephora, Peach & Lily, etc.
