### **Report description:**

Demand for home care in Australia remained above pre-pandemic levels in 2022 as certain cleaning habits persisted, despite a marginal decline in retail volume sales. Positive performers included liquid detergents, air care, surface care (impregnated wet wipes) and toilet care. This was due to the ongoing hybrid working arrangements and continued cooking at home, as consumers maintained clean and hygienic living environments. However, demand for bleach and polishes continued to decline due to env...

Euromonitor International's Home Care in Australia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
