Report description:

While retail sales of tissue and hygiene registered dynamic growth in current value terms in 2022 this was largely driven by high inflation. Spain was heavily impacted by the cost-of-living crisis, rising inflation and the dramatic increase in commodity prices in 2022, with this being driven by Russia's invasion of Ukraine and the lingering impact of the COVID-19 pandemic. All these factors combined have served to drive value growth but have contributed to a decline in volume sales for many prod...
