Report description:

Although value sales through direct selling are low in Georgia, they showed a slight increase in 2022. There is a shift away from this channel due to growing competition from online players, which provide a greater assortment of products and the convenience of delivery. Moreover, consumers can access popular cosmetics brands online, providing strong competition to direct sellers, which is mainly represented by beauty and personal care products in Georgia. Most of these products are imported beau...

Euromonitor International's Direct Selling in Georgia report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
