Report description:

Prior to the onset of the pandemic, many health and beauty specialists had based their marketing strategies on organising beauty events to which they invited social media influencers and vloggers, who are increasingly prominent in Morocco. However, the pandemic brought an abrupt end to this strategy - at least temporarily. 2020 saw health and beauty specialist retailers re-orient their marketing strategies towards the internet, particularly social media, with this trend continuing into 2021.

The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
