Summary

Pharmaceuticals in France industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2016-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The pharmaceuticals market consists of ethical drugs only and does not include consumer healthcare or animal healthcare.
- The French pharmaceuticals market had total revenues of \$72.6 billion in 2021, representing a compound annual growth rate (CAGR) of 3.6% between 2016 and 2021.
- The French government's decision to increase its focus on the use of generic medicines to reduce healthcare spending has resulted in decreasing volumes and a downward pricing pressure on existing drugs.
- France significantly depends upon imports from Asia, with nearly 80% of medications imported. As the border restrictions have eased, the French pharmaceuticals market is anticipated to remain consistent.
