### **Report description:**

Despite a growth slowdown in the Belgian pet population, the pet care industry continues to benefit from an increase in food volume growth and a moderate increase especially of cats and dogs. The population slowdown has been consistent since the aftermath of the pandemic, especially by the end of 2022 and beginning of 2023. Due to inflation reaching its highest level in decades, many consumers are no longer able to keep up with the cost of living and have had to give up their pets, resulting in...

Euromonitor International's Pet Care in Belgium report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
