### **Report description:**

Concerns regarding inflation and rising food prices took centre stage during 2022. In the wake of Russia's invasion of Ukraine, food inflation spiked, which had a significant impact on consumer spending. Overall inflation in South Africa increased to 7.4 % in June 2022, the highest rate since May 2009. Considering the rise in food and transportation costs, the majority of local consumers were restricted from purchasing non-essentials. Many low-income consumers were impacted the most, resulting i...

Euromonitor International's Tissue and Hygiene in South Africa report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
