Report description:

Cat food is set to maintain double-digit current value growth in 2023, with wet cat food and cat treats and mixers expected to see the strongest growth rates. The importance of water intake has been emphasised to cat owners, and wet cat food has benefited from this, and been able to grow rapidly. Pet food with a high water content tends to have a shorter consumption cycle and higher unit price than dry food. As well as ensuring water intake, wet food is also set to see the best performance due t...

Euromonitor International's Cat Food in South Korea report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
