Report description:

Retail e-commerce in Serbia continued to see dynamic growth in 2022, even outpacing the sharp spike in growth seen in 2020 following the outbreak of COVID-19. Retail e-commerce in Serbia has grown considerably since the start of the pandemic, with online sales accounting for as much as a fifth of sales in some areas of the market. Consumers are becoming increasingly confident about shopping online and have also become increasingly familiar with the value and convenience that can be achieved by s...
