Report description:

The underwhelming sales performance registered in baby and child-specific products during 2022 can be attributed largely to the contraction of the end consumer base for these products. The number of babies being born in Morocco continues to decline as the harsh economic conditions and the impact of the COVID-19 pandemic have discouraged many young couples from starting a family. Many of Morocco's would-be parents have decided to delay the start of their journey into parenthood, focusing instead...

Euromonitor International's Baby and Child-specific Products in Morocco report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
