### **Report description:**

The return to overall positive retail volume growth for deodorants in 2022 was underpinned by the fuller resumption of work, social and fitness/exercise/sports norms as the Coronavirus (COVID-19) pandemic and related restrictions eased. Meanwhile, amid high inflation, rising average unit prices shaped fast retail current value growth. As retail volume sales grew only modestly, they remained below the pre-pandemic 2019 level at the end of the review period.
