Report description:

Italian eyewear is projected to record single-digit growth in current value terms in 2023. Eyewear saw a quick recovery after the decline seen in 2020 due to the COVID-19 pandemic. Value sales returned to pre-pandemic levels in 2021 with this being followed by more stable growth in 2022 as life began returning to relative normality thanks to the easing of restrictions. 2023 has been a challenging year for many Italians with high inflation putting further pressure on disposable income. As a resul...
