Report description:

Retail sales of spectacles advanced at a slower rate in constant value terms in 2023, continuing the trend of the previous year. Unlike contact lenses, the category registered healthy growth during the pandemic years, due to the fact that glasses were seen as essential items. In addition, the fear of being infected with COVID-19 drove many consumers to opt for spectacles, rather than contact lenses, as the former offered some form of protection against the virus. The remote working trend also ha...

Euromonitor International's Spectacles in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2018-2022), allowing you to identify the sectors driving growth.
