Report description:

Beauty and personal care saw steady growth in 2022 backed by the lifting of COVID-19 restrictions and an increase in economic activity. COVID-19 had a negative impact on demand with many consumers plunged into economic uncertainty, with this being compounded by elevated inflation which led to a sharp rise in prices. However, with COVID-19 fears subsiding the outlook is more favourable, with demand being supported by a greater focus on hygiene and personal appearance and more stable inflation.
