Report description:

In 2022, the COVID-19 pandemic is no longer causing disturbances to BPC and many categories are actually benefiting from the easing of restrictions that took place in 2021. However, the industry now faces a new set of challenges as global inflation and rising transportation costs are seeing prices rise across the categories. This is forcing consumers to be more mindful of their spending habits and unfortunately giving counterfeit products even more desirability than they previously already had.
