### **Report description:**

In 2022, the pandemic era settled down and consumers returned to their normal lives. After two years of restrictions, consumers were willing to spend their money on products that contributed to their sense of wellbeing. The unemployment rate is historically low in Slovenia, which is increasing consumers' rates of expenditure. But with the high level of employment and social life getting back to normal once again, lifestyles have become much busier and more stressful. Consumers mostly work for lo...
