Report description:

Despite initial enthusiasm after the lifting of pandemic-related restrictions, beauty and personal care faced significant challenges in 2022, including high inflation, rising energy costs, and the Russian invasion of Ukraine. As a result, the overall dynamic of the product area has seen a considerable slowdown in terms of volume sales, while value sales were boosted by inflation and increasing unit prices across nearly all categories. A combination of ingredient shortages, transportation bottlen...

Euromonitor International's Beauty and Personal Care in Czech Republic report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
