Report description:

Retail sales of fragrances made a full recovery in constant value terms in 2022, following the decline seen during the pandemic. Growth was boosted by an increase in the number of social occasions, such as parties and weddings, which are closely associated with the use and consumption of fragrances. This was largely the result of the easing of COVID-19 restrictions, combined with the need for small indulgences after a long period of abstention. Indeed, many Swedes added to their fragrance collec...
