Report description:

Current value growth was largely driven by inflation in 2022 with rising prices contributing to a small decline in retail volume sales. However, the shift back to using hair salons post pandemic was the main cause of lower demand for hair care products. Many Danes had delayed having haircuts and treatments during the pandemic, so there was significant pent up demand. Salon professional hair care products witnessed a decline in 2022 following two years of robust growth when Danes purchased higher...

Euromonitor International's Hair Care in Denmark report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
