### **Report description:**

Video games saw an acceleration of growth during the first year of the pandemic, and although a slowdown in the growth momentum was seen in 2022 compared with 2020, growth remained solid. In 2022, players faced higher costs due to the impact of inflation. Moreover, the shortage of semiconductors further impacted the category, with the shortfall persisting until December 2022. And, as people returned to their normal lives, the demand for video games slowed as people were excited to engage in acti...
