

Medical Document Management Systems Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2023-2028

Market Report | 2023-05-29 | 143 pages | IMARC Group

AVAILABLE LICENSES:

- Electronic (PDF) Single User \$2499.00
- Five User Licence \$3499.00
- Enterprisewide License \$4499.00

Report description:

The global medical document management systems market size reached US\$ 551.0 Million in 2022. Looking forward, IMARC Group expects the market to reach US\$ 1,111.7 Million by 2028, exhibiting a growth rate (CAGR) of 11.9% during 2023-2028.

A medical document management system (DMS) tracks, manages, and stores documents and aids in the reduction of paper usage. It assists in streamlining the billing process and coordinating the flow of information between laboratories and other departments. It enhances productivity by providing fast access to documents and allowing quick processing with minimum errors. As a result, medical DMS finds extensive applications in hospitals, clinics, nursing homes, and insurance agencies around the world.

Medical Document Management Systems Market Trends:

There is presently a considerable rise in the number of patients visiting hospitals on account of the increasing prevalence of chronic diseases worldwide. This represents one of the key factors stimulating the growth of the market. Moreover, paper medical records can be easily misplaced or destroyed in a fire, flood, or natural disaster. Converting medical documents to a digital format helps develop a more efficient document workflow irrespective of the size of the project or the type of files being converted. Besides this, physically retrieving paper documents from archives and delivering them to different departments is time-consuming. However, using digitized medical DMS decreases retrieval time with no physical effort. This, in confluence with the rising automation and digitalization in the healthcare industry, is strengthening the growth of the market. Furthermore, there is an increase in the use of electronic health records (EHRs), which are real-time, patient-centered records that make information available instantly and securely to authorized users. These records include clinical data, such as demographics, progress notes, problems, medications, vital signs, past medical history, immunizations, laboratory data, and radiology reports. This, coupled with the rising adoption of health management information systems (HMIS), is impelling the growth of the market.

Key Market Segmentation:

Scotts International. EU Vat number: PL 6772247784

www.scotts-international.com

IMARC Group provides an analysis of the key trends in each sub-segment of the global medical document management systems market report, along with forecasts at the global, regional and country level from 2023-2028. Our report has categorized the market based on product, mode of delivery, application and end user.

Breakup by Product:

Solution
Services

Breakup by Mode of Delivery:

Web-based and Cloud-based
On-premises

Breakup by Application:

Patient Medical Records Management
Admission and Registration Documents Management
Patient Billing Documents Management
Others

Breakup by End User:

Hospitals and Clinics
Insurance Providers
Others

Breakup by Region:

North America
United States
Canada
Asia-Pacific
China
Japan
India
South Korea
Australia
Indonesia
Others
Europe
Germany
France
United Kingdom
Italy
Spain
Russia

Scotts International. EU Vat number: PL 6772247784

tel. 0048 603 394 346 e-mail: support@scotts-international.com

www.scotts-international.com

Others
Latin America
Brazil
Mexico
Others
Middle East and Africa

Competitive Landscape:

The competitive landscape of the industry has also been examined along with the profiles of the key players being 3M Company, Allscripts Healthcare Solutions Inc., Athenahealth Inc., Cerner Corporation, Epic Systems Corporation, General Electric Company, Hyland Software Inc., Kofax Inc., McKesson Corporation, Nextgen Healthcare Inc., Siemens Aktiengesellschaft and Toshiba Corporation.

Key Questions Answered in This Report

1. What was the size of the global medical document management systems market in 2022?
2. What is the expected growth rate of the global medical document management systems market during 2023-2028?
3. What has been the impact of COVID-19 on the global medical document management systems market?
4. What are the key factors driving the global medical document management systems market?
5. What is the breakup of the global medical document management systems market based on the product?
6. What is the breakup of the global medical document management systems market based on the mode of delivery?
7. What is the breakup of the global medical document management systems market based on application?
8. What is the breakup of the global medical document management systems market based on the end user?
9. What are the key regions in the global medical document management systems market?
10. Who are the key players/companies in the global medical document management systems market?

Table of Contents:

- 1 Preface
- 2 Scope and Methodology
 - 2.1 Objectives of the Study
 - 2.2 Stakeholders
 - 2.3 Data Sources
 - 2.3.1 Primary Sources
 - 2.3.2 Secondary Sources
 - 2.4 Market Estimation
 - 2.4.1 Bottom-Up Approach
 - 2.4.2 Top-Down Approach
 - 2.5 Forecasting Methodology
- 3 Executive Summary
- 4 Introduction
 - 4.1 Overview
 - 4.2 Key Industry Trends
- 5 Global Medical Document Management Systems Market
 - 5.1 Market Overview
 - 5.2 Market Performance
 - 5.3 Impact of COVID-19
 - 5.4 Market Forecast
