

**Banking Encryption Software Market by Component (Software, Services),  
Deployment Mode (On-premises, Cloud-based), Enterprise Size (Large Enterprises,  
Small and Medium-sized Enterprises), Function (Disk Encryption, Communication  
Encryption, File/Folder Encryption, Cloud Encryption), and Region 2023-2028**

Market Report | 2023-05-29 | 134 pages | IMARC Group

**AVAILABLE LICENSES:**

- Electronic (PDF) Single User \$3999.00
- Five User Licence \$4999.00
- Enterprisewide License \$5999.00

**Report description:**

Market Overview:

The global banking encryption software market size reached US\$ 2.1 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 4.31 Billion by 2028, exhibiting a growth rate (CAGR) of 11.70% during 2023-2028. The growing utilization of digital payment technologies, increasing number of cyberattack cases, and rising demand for data security and safety among banks and financial institutions represent some of the key factors driving the market.

Banking encryption software is designed to exchange the transaction detail document with the customers confidentially. It comprises various encryptions, such as disk, communication, file, folder, and cloud. It provides high security of transactions, hassle-free services, privacy protection, and real-time notifications. It prevents the leakage of sensitive information and reduces the risks of fraudulent activities, such as hacking and threats. It assists in lowering the risk of losses and enhancing business operations in a cost-effective and efficient manner. It aids in maintaining confidential data, improving data integrity, and increasing consumer trust. Besides this, it is beneficial in streamlining the process and meeting potential compliance and legal requirements. As a result, banking encryption software is widely employed in small and medium-sized enterprises (SMEs) and large-sized enterprises around the world.

Banking Encryption Software Market Trends:

At present, the increasing demand for banking encryption software due to the growing utilization of digital payment technologies, such as credit and debit cards and mobile banking across the globe, represents one of the major factors influencing the market positively. Moreover, the rising employment of banking encryption software among various businesses to generate more valuable insights and better data management is strengthening the growth of the market. Apart from this, the growing adoption of banking encryption software due to the increasing number of cyberattack cases among fintech institutes around the world is offering a positive market outlook. Additionally, the rising adoption of banking encryption software to prevent the misuse of client information is contributing to the growth of the market. Besides this, governing agencies of various countries are encouraging the adoption of banking encryption software by implementing several data privacy laws for the banking sector to protect against thefts, which is offering lucrative growth opportunities to industry investors. In addition, there is a rise in the demand for data security and safety among banks and financial institutions across the globe. In line with this, the increasing adoption of artificial intelligence (AI)-based banking software that assists in enhancing efficiency and effectiveness is bolstering the growth of the market. Furthermore, the rising utilization of cloud-based encryption among businesses that allows easy access to information from remote places while maintaining high security is supporting the growth of the market.

#### Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each segment of the global banking encryption software market, along with forecasts at the global, regional, and country levels from 2023-2028. Our report has categorized the market based on component, deployment mode, enterprise size, and function.

#### Component Insights:

- Software
- Services
- 

The report has provided a detailed breakup and analysis of the banking encryption software market based on the component. This includes software and services. According to the report, software represented the largest segment.

#### Deployment Mode Insights:

- On-premises
- Cloud-based
- 

A detailed breakup and analysis of the banking encryption software market based on the deployment mode has also been provided in the report. This includes on-premises and cloud-based. According to the report, on-premises accounted for the largest market share.

#### Enterprise Size Insights:

- Large Enterprises
- Small and Medium-sized Enterprises
- 

A detailed breakup and analysis of the banking encryption software market based on the enterprise size has also been provided in the report. This includes large enterprises and small and medium-sized enterprises. According to the report, large enterprises

[www.scotts-international.com](http://www.scotts-international.com)

accounted for the largest market share.

Function Insights:

- Disk Encryption
- Communication Encryption
- File/Folder Encryption
- Cloud Encryption
- 

A detailed breakup and analysis of the banking encryption software market based on the function has also been provided in the report. This includes disk encryption, communication encryption, file or folder encryption, and cloud encryption. According to the report, disk encryption accounted for the largest market share.

Regional Insights:

- North America
  - 
  - United States
  - Canada
  - 
  -
- Asia Pacific
  - 
  - China
  - Japan
  - India
  - South Korea
  - Australia
  - Indonesia
  - Others
  - 
  -
- Europe
  - 
  - Germany
  - France
  - United Kingdom
  - Italy
  - Spain
  - Russia
  - Others
  - 
  -
- Latin America
  - 
  - Brazil

- ☐☐Mexico
- ☐☐Others
- ☐
- ☐
- ☐Middle East and Africa
- ☐

The report has also provided a comprehensive analysis of all the major regional markets, which include North America (the United States and Canada); Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, and others); Europe (Germany, France, United Kingdom, Italy, Spain, Russia, and others); Latin America (Brazil, Mexico, and others); and the Middle East and Africa. According to the report, North America (the United States and Canada) was the largest market for banking encryption software. Some of the factors driving the North America banking encryption software market included the growing demand by private and public banks to safeguard and secure data privacy, rising cyberattacks, favorable government initiatives for data security technologies, etc.

#### Competitive Landscape:

The report has also provided a comprehensive analysis of the competitive landscape in the global banking encryption software market. Competitive analysis such as market structure, market share by key players, player positioning, top winning strategies, competitive dashboard, and company evaluation quadrant has been covered in the report. Also, detailed profiles of all major companies have been provided. Some of the companies covered include Broadcom Inc., ESET spol. s r.o., International Business Machines Corporation, McAfee, LLC, Sophos Ltd., Thales Group, Trend Micro Inc., WinMagic, etc. Kindly note that this only represents a partial list of companies, and the complete list has been provided in the report.

#### Key Questions Answered in This Report:

- ☐How has the global banking encryption software market performed so far, and how will it perform in the coming years?
- ☐What are the drivers, restraints, and opportunities in the global banking encryption software market?
- ☐What is the impact of each driver, restraint, and opportunity on the global banking encryption software market?
- ☐What are the key regional markets?
- ☐Which countries represent the most attractive banking encryption software market?
- ☐What is the breakup of the market based on the component?
- ☐Which is the most attractive component in the banking encryption software market?
- ☐What is the breakup of the market based on the deployment mode?
- ☐Which is the most attractive deployment mode in the banking encryption software market?
- ☐What is the breakup of the market based on the enterprise size?
- ☐Which is the most attractive enterprise size in the banking encryption software market?
- ☐What is the breakup of the market based on the function?
- ☐Which is the most attractive function in the banking encryption software market?
- ☐What is the competitive structure of the global banking encryption software market?
- ☐Who are the key players/companies in the global banking encryption software market?

#### Table of Contents:

- 1 Preface
- 2 Scope and Methodology
  - 2.1 Objectives of the Study
  - 2.2 Stakeholders

- 2.3 Data Sources
  - 2.3.1 Primary Sources
  - 2.3.2 Secondary Sources
- 2.4 Market Estimation
  - 2.4.1 Bottom-Up Approach
  - 2.4.2 Top-Down Approach
- 2.5 Forecasting Methodology
- 3 Executive Summary
- 4 Introduction
  - 4.1 Overview
  - 4.2 Key Industry Trends
- 5 Global Banking Encryption Software Market
  - 5.1 Market Overview
  - 5.2 Market Performance
  - 5.3 Impact of COVID-19
  - 5.4 Market Forecast
- 6 Market Breakup by Component
  - 6.1 Software
    - 6.1.1 Market Trends
    - 6.1.2 Market Forecast
  - 6.2 Services
    - 6.2.1 Market Trends
    - 6.2.2 Market Forecast
- 7 Market Breakup by Deployment Mode
  - 7.1 On-premises
    - 7.1.1 Market Trends
    - 7.1.2 Market Forecast
  - 7.2 Cloud-based
    - 7.2.1 Market Trends
    - 7.2.2 Market Forecast
- 8 Market Breakup by Enterprise Size
  - 8.1 Large Enterprises
    - 8.1.1 Market Trends
    - 8.1.2 Market Forecast
  - 8.2 Small and Medium-sized Enterprises
    - 8.2.1 Market Trends
    - 8.2.2 Market Forecast
- 9 Market Breakup by Function
  - 9.1 Disk Encryption
    - 9.1.1 Market Trends
    - 9.1.2 Market Forecast
  - 9.2 Communication Encryption
    - 9.2.1 Market Trends
    - 9.2.2 Market Forecast
  - 9.3 File/Folder Encryption
    - 9.3.1 Market Trends
    - 9.3.2 Market Forecast
