Report description:

The pandemic led to an economic downturn in China, with GDP growth slowing and job losses increasing. This led to a reduction in consumer spending, especially on perceived non-essential items such as home furnishings. Moreover, during the pandemic, many physical retailers were closed or operated limited hours, making it difficult for consumers to visit stores to purchase home furnishings. This forced many consumers to delay their purchases or turn to online shopping, which can be less appealing...

Euromonitor International's Home Furnishings in China report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2027 illustrate how market demand is expected to evolve in the medium-term

Product coverage: Indoor Living, Lighting, Outdoor Living.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
