Report description:

Self-service cafeterias tend to be primarily located near institutions and workplaces, with the majority of revenue driven by consumers who either study in these educational institutions or who attend busy workplaces. During 2020-2021, most of these educational institutions and workplaces were closed or partially operational due to multiple restrictions. In 2022, with restrictions in India being removed and the local economy reopening, footfall to self-service cafeterias notably increased. While...

Euromonitor International's Self-Service Cafeterias in India report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth.
