Report description:

The trend towards sustainability and eco-friendliness in the gardening industry in Canada is driven by growing consumer awareness about environmental issues and the impact of human activities on the planet. As a result, there has been a rise in demand for gardening products which are organic, locally sourced, and use natural pest control and fertilisation methods.

Euromonitor International's Gardening in Canada report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2027 illustrate how market demand is expected to evolve in the medium-term

Product coverage: Garden Care, Gardening Equipment, Horticulture, Other Gardening, Pots and Planters.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
