Report description:

The post-pandemic era has seen booming demand for home paint as the experiences of social distancing, home seclusion and, in particular, working from home at the peak of the pandemic during 2020 has led many Indonesians to the conclusion that they need to refresh their homes to improve their living spaces. Painting one's home has certainly emerged as a highly cost-effective and easy way to achieve this and this has underpinned booming demand for home paint, with value sales now higher than durin...

Euromonitor International's Home Improvement in Indonesia report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2027 illustrate how market demand is expected to evolve in the medium-term
