- Enterprisewide License \$5999.00

Report description:

The global pin fin heat sink for IGBT market size reached US\$ 953.3 Million in 2022. Looking forward, IMARC Group expects the market to reach US\$ 1,251.46 Million by 2028, exhibiting a growth rate (CAGR) of 4.32% during 2023-2028. The surging need for effective cooling solutions for modern consumer electronics, the rising use of IGBT modules in the automotive industry for EVs and HEVs, and the growing popularity of hybrid pin fin heat sinks for multi-device cooling represent some of the key factors driving the market.

Pin fin heat sinks refer to compact sinks with a flat base and a large number of pin-like structures designed to dissipate heat out into the surrounding air. They are usually manufactured using copper or aluminum alloys and appear as a solid block embedded with multiple fins. The pin fins can be easily customized for various applications based on the heat load, airflow, and available space. These sinks serve as heat exchangers and are designed and structured geometrically to increase the surface area and coefficient for heat transfer, provide low thermal resistance from base to fins at high airflow (200-plus LFM), and work in environments with ambiguous airflow direction, making them highly effective. The round aerodynamic pin design and spacing reduce resistance to surrounding airstreams that enter the pin array while simultaneously increasing air turbulence. This, in turn, breaks the boundary layers of still air wrapped around its surface, creating high convective thermal efficiencies. As a result, pin fin heat sinks are widely used to cool insulated-gate bipolar transistors (IGBT).

Pin Fin Heat Sink for IGBT Market Trends:

Pin fin heat sinks are gaining immense popularity in solving complex thermal problems in applications with limited space and substantial heat loads. At present, the surging need for effective cooling solutions to meet the requirements of modern electronics via proper heat dissipation methods is accelerating the adoption of pin fin heat sinks. This, coupled with the escalating demand for huge power supply due to the expanding global population and rapid digitization, represents the primary factor driving the market growth. Moreover, there has been a significant shift from other types of heat sinks toward pin fin heat sinks owing to the growing awareness about their benefits, such as higher volumetric efficiency, compact size, lightweight, better cooling capacity, and low

cost. In line with this, the rising adoption of IGBT modules in the automotive industry for hybrid electric vehicles (HEVs) and electric vehicles (EVs) has catalyzed market growth. In addition, the augmenting demand for component density and the increasing miniaturization of electronic devices has strengthened the need for compact and cost-effective cooling solutions, such as pin fin heat sinks. Furthermore, various product innovations by key players, such as the development of the hybrid pin fin heat sink that offers better thermal performance than standard aluminum and copper sinks and can be used for multi-device cooling, are providing a positive thrust to the market growth.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each segment of the global pin fin heat sink for IGBT market, along with forecasts at the global, regional, and country levels from 2023-2028. Our report has categorized the market based on material type and application.

Material Type Insights:

Aluminium

Copper

The report has provided a detailed breakup and analysis of the pin fin heat sink for IGBT market based on the material type. This includes aluminium and copper. According to the report, aluminium represented the largest segment.

Application Insights:

Automotive Field

Consumer Electronics

A detailed breakup and analysis of the pin fin heat sink for IGBT market based on the application has also been provided in the report. This includes automotive field and consumer electronics. According to the report, the automotive field accounted for the largest market share.

Regional Insights:

North America

United States

Canada

Asia-Pacific

China

Japan

India

South Korea

Australia

Indonesia

Others

Europe

Germany

France

United Kingdom

Italy

www.scotts-international.com

Spain
Russia
Others
Latin America
Brazil
Mexico
Others
Middle East and Africa

The report has also provided a comprehensive analysis of all the major regional markets, which include North America (the United States and Canada); Asia-Pacific (China, Japan, India, South Korea, Australia, Indonesia, and others); Europe (Germany, France, the United Kingdom, Italy, Spain, Russia and others); Latin America (Brazil, Mexico, and others); and the Middle East and Africa. According to the report, Asia-Pacific was the largest market for pin fin heat sink for IGBT. Some of the factors driving the Asia-Pacific Pin Fin Heat Sink for IGBT market included the rapid growth in the automotive sector, increasing demand for power supply devices, emerging trend of home remodeling, etc.

Competitive Landscape:

The report has also provided a comprehensive analysis of the competitive landscape in the global pin fin heat sink for IGBT market. Competitive analysis such as market structure, market share by key players, player positioning, top winning strategies, competitive dashboard, and company evaluation quadrant has been covered in the report. Also, detailed profiles of all major companies have been provided. Some of the companies covered include Advanced Thermal Solutions Inc., Wellste Aluminum, etc. Kindly note that this only represents a partial list of companies, and the complete list has been provided in the report.

Key Questions Answered in This Report:

How has the global pin fin heat sink for IGBT market performed so far, and how will it perform in the coming years?

What are the drivers, restraints, and opportunities in the global pin fin heat sink for IGBT market?

What is the impact of each driver, restraint, and opportunity on the global pin fin heat sink for IGBT market?

What are the key regional markets?

Which countries represent the most attractive pin fin heat sink for IGBT market?

What is the breakup of the market based on the material type?

Which is the most attractive material type in the pin fin heat sink for IGBT market?

What is the breakup of the market based on the application?

Which is the most attractive application in the pin fin heat sink for IGBT market?

What is the competitive structure of the global pin fin heat sink for IGBT market?

Who are the key players/companies in the global pin fin heat sink for IGBT market?

Table of Contents:

- 1 Preface
- 2 Scope and Methodology
 - 2.1 Objectives of the Study
 - 2.2 Stakeholders
 - 2.3 Data Sources
 - 2.3.1 Primary Sources
 - 2.3.2 Secondary Sources
 - 2.4 Market Estimation
 - 2.4.1 Bottom-Up Approach
 - 2.4.2 Top-Down Approach

- 2.5 Forecasting Methodology
- 3 Executive Summary
- 4 Introduction
 - 4.1 Overview
 - 4.2 Key Industry Trends
- 5 Global Pin Fin Heat Sink for IGBT Market
 - 5.1 Market Overview
 - 5.2 Market Performance
 - 5.3 Impact of COVID-19
 - 5.4 Market Forecast
- 6 Market Breakup by Material Type
 - 6.1 Aluminium
 - 6.1.1 Market Trends
 - 6.1.2 Market Forecast
 - 6.2 Copper
 - 6.2.1 Market Trends
 - 6.2.2 Market Forecast
- 7 Market Breakup by Application
 - 7.1 Automotive Field
 - 7.1.1 Market Trends
 - 7.1.2 Market Forecast
 - 7.2 Consumer Electronics
 - 7.2.1 Market Trends
 - 7.2.2 Market Forecast
- 8 Market Breakup by Region
 - 8.1 North America
 - 8.1.1 United States
 - 8.1.1.1 Market Trends
 - 8.1.1.2 Market Forecast
 - 8.1.2 Canada
 - 8.1.2.1 Market Trends
 - 8.1.2.2 Market Forecast
 - 8.2 Asia-Pacific
 - 8.2.1 China
 - 8.2.1.1 Market Trends
 - 8.2.1.2 Market Forecast
 - 8.2.2 Japan
 - 8.2.2.1 Market Trends
 - 8.2.2.2 Market Forecast
 - 8.2.3 India
 - 8.2.3.1 Market Trends
 - 8.2.3.2 Market Forecast
 - 8.2.4 South Korea
 - 8.2.4.1 Market Trends
 - 8.2.4.2 Market Forecast
 - 8.2.5 Australia
 - 8.2.5.1 Market Trends

- 8.2.5.2 Market Forecast
- 8.2.6 Indonesia
 - 8.2.6.1 Market Trends
 - 8.2.6.2 Market Forecast
- 8.2.7 Others
 - 8.2.7.1 Market Trends
 - 8.2.7.2 Market Forecast
- 8.3 Europe
 - 8.3.1 Germany
 - 8.3.1.1 Market Trends
 - 8.3.1.2 Market Forecast
 - 8.3.2 France
 - 8.3.2.1 Market Trends
 - 8.3.2.2 Market Forecast
 - 8.3.3 United Kingdom
 - 8.3.3.1 Market Trends
 - 8.3.3.2 Market Forecast
 - 8.3.4 Italy
 - 8.3.4.1 Market Trends
 - 8.3.4.2 Market Forecast
 - 8.3.5 Spain
 - 8.3.5.1 Market Trends
 - 8.3.5.2 Market Forecast
 - 8.3.6 Russia
 - 8.3.6.1 Market Trends
 - 8.3.6.2 Market Forecast
 - 8.3.7 Others
 - 8.3.7.1 Market Trends
 - 8.3.7.2 Market Forecast
- 8.4 Latin America
 - 8.4.1 Brazil
 - 8.4.1.1 Market Trends
 - 8.4.1.2 Market Forecast
 - 8.4.2 Mexico
 - 8.4.2.1 Market Trends
 - 8.4.2.2 Market Forecast
 - 8.4.3 Others
 - 8.4.3.1 Market Trends
 - 8.4.3.2 Market Forecast
- 8.5 Middle East and Africa
 - 8.5.1 Market Trends
 - 8.5.2 Market Breakup by Country
 - 8.5.3 Market Forecast
- 9 Drivers, Restraints, and Opportunities
 - 9.1 Overview
 - 9.2 Drivers
 - 9.3 Restraints

- 9.4 Opportunities
 - 10 Value Chain Analysis
 - 11 Porters Five Forces Analysis
 - 11.1 Overview
 - 11.2 Bargaining Power of Buyers
 - 11.3 Bargaining Power of Suppliers
 - 11.4 Degree of Competition
 - 11.5 Threat of New Entrants
 - 11.6 Threat of Substitutes
 - 12 Price Analysis
 - 13 Competitive Landscape
 - 13.1 Market Structure
 - 13.2 Key Players
 - 13.3 Profiles of Key Players
 - 13.3.1 Advanced Thermal Solutions Inc.
 - 13.3.1.1 Company Overview
 - 13.3.1.2 Product Portfolio
 - 13.3.2 Wellste Aluminum
 - 13.3.2.1 Company Overview
 - 13.3.2.2 Product Portfolio
- Kindly note that this only represents a partial list of companies, and the complete list has been provided in the report.

Pin Fin Heat Sink for IGBT Market by Material Type (Aluminium, Copper), Application (Automotive Field, Consumer Electronics), and Region 2023-2028
