South Africa Mobile Phones Market Summary, Competitive Analysis and Forecast to 2027

Summary

Mobile Phones in South Africa industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The Mobile Phones market includes mobile phone service revenues and average minutes of use (MOU). Market values are made up of total mobile revenues containing revenues from mobile service providers and other members of the mobile service value-chain for the provision of mobile telephony services, excluding revenues from the sale of devices. Market volumes are made up of two segments: prepaid and postpaid, which consist of prepaid average monthly MOU and postpaid average monthly MOU. Minutes of use are made up from the average of voice minutes used in mobile subscriptions, including both incoming and outgoing calls, but not including M2M/IoT voice services.
- The South African mobile phones market generated total revenues of \$8.2 billion in 2022, representing a compound annual growth rate (CAGR) of 2.1% between 2017 and 2022.
- Market consumption volume is forecasted to decline with a CAGR of 2.2% between 2017 and 2022, to reach a total of 448.8 average MOU in 2022.
- The government's SA Connect initiative, as well as mobile network modernization initiatives by operators aimed at delivering 4G/5G services, will help drive connectivity in the country and fuel the growth of market player's revenue.
