India Mobile Phones Market Summary, Competitive Analysis and Forecast to 2027

Summary

Mobile Phones in India industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The Mobile Phones market includes mobile phone service revenues and average minutes of use (MOU). Market values are made up of total mobile revenues containing revenues from mobile service providers and other members of the mobile service value-chain for the provision of mobile telephony services, excluding revenues from the sale of devices. Market volumes are made up of two segments: prepaid and postpaid, which consist of prepaid average monthly MOU and postpaid average monthly MOU. Minutes of use are made up from the average of voice minutes used in mobile subscriptions, including both incoming and outgoing calls, but not including M2M/IoT voice services.
- The Indian mobile phones market had total revenues of \$27.4 billion in 2022, representing a negative compound annual growth rate (CAGR) of 1.3% between 2017 and 2022.
- Market consumption volume increased with a CAGR of 13.8% between 2017 and 2022, to reach an average MOU of 2,144.6 in 2022.
- The mobile phones market in India has recently witnessed consolidation into three large private players from over eight players, which has led to the accelerated absorption of multiple SIM users.
