France Air Freight Market Summary, Competitive Analysis and Forecast to 2027

Summary

Air Freight in France industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The air freight sector is defined as consisting of revenues generated from freight transportation by air.
- The French air freight sector had total revenues of \$1.6 billion in 2022, representing a negative compound annual growth rate (CAGR) of 8.6% between 2017 and 2022.
- Sector consumption volumes declined with a negative CAGR of 9% between 2017 and 2022, reaching a total of 2.7 billion FTK in 2022.
- The French air freight sector has declined recently owing to several factors such as increasing interest rates and rising inflation. High-interest rates reduce access to credit for the companies involved, thereby reducing the volume of investment which negatively impacts air freight. For instance, according to the OECD, the long-term interest rates grew from 0.7% in December 2017 to 2.6% in December 2022.
