Report description:

Retail volume sales and current value growth of cigarettes slowed down in Algeria in 2022 compared with the previous year of the review period, even though the Algerian government has not actively engaged in anti-smoking campaigns or expanded access to services for local consumers looking to quit tobacco. Rising average unit prices and declining disposable income levels remain the primary drivers of the declining trend. General inflationary pressures are also placing downward pressure on consume...

Euromonitor International's Cigarettes in Algeria report offers a comprehensive guide to the size and shape of the market at a national level.
