Report description:

The gum category is highly dependent on consumer mobility fuelling on-the go consumption. Gum had already been on a declining trend even before COVID-19, but mobility restrictions during the pandemic had a strong negative impact on the category, as Australia experienced tough restrictions and heightened anxiety around outbreaks of the virus. The wearing of masks during the pandemic also reduced the consumption occasions for gum, as well as office workers shifting to remote working. As mobility h...

Euromonitor International's Gum in Australia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
