Report description:

In 2022, beer showed a positive trend, with total volume sales recording a modest increase, driven by a strong performance in the on-trade. The recovery of the market due to the restoration of tourist flows as well as a generally more stable political situation after the events of 2020 had a positive effect on sales of beer in 2022, in the on-trade, at least.

Euromonitor International's Beer in Azerbaijan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2018-2022), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Dark Beer, Lager, Non/Low Alcohol Beer, Stout.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Beer market;
- * Pinpoint growth sectors and identify factors driving change;
