Report description:

The Romanian beer market faced substantial challenges in 2022, predominantly stemming from the combination of escalating inflation, rising energy and transport costs, and the war in Ukraine. These influences considerably disrupted the supply of raw ingredients across Europe, subsequently driving up prices and inevitably impacting the final shelf price of beer.

Euromonitor International's Beer in Romania report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2018-2022), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Dark Beer, Lager, Non/Low Alcohol Beer, Stout.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
