### **Report description:**

Russia's war in Ukraine has had a significant impact on dog food in 2022 and 2023. Firstly, a large number of people (20% of the population) left the country following Russia's invasion, with some of them taking their dogs with them, especially small and medium ones. Furthermore, some dogs from "hot areas" were evacuated and moved abroad by volunteers and international organisations. Meanwhile, dog breeders stopped work till the end of 2022, with some of them unlikely to resume their businesses.
