Report description:

There is a high level of illegal trade/counterfeit tobacco products in Kenya, especially cigarettes. These products manage to enter the country through porous borders and continuously pose a challenge to local manufacturers while damaging the overall industry performance and dampening sales volume. Illicit cigarettes are untaxed, making them cheaper in comparison. The current economic situation favours cheaper products, making them highly appealing to consumers living on restricted disposable bu...

Euromonitor International's Cigarettes in Kenya report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be the new legislative, distribution or pricing issues.
