Report description:

New Zealand RO Membrane Biocide Market Research Report Forecast to 2030

Major Players

The New Zealand RO membrane biocide market was valued at USD 7.48 million in 2021 and is projected to register a CAGR of 8.61% to reach USD 14.92 million by the end of 2030. Drinking water systems, industrial boilers, food and beverage processing, pharmaceuticals, waste-water treatment, desalination, and microelectronics are just some of the many uses for highly purified water that are driving the New Zealand demand for RO membrane chemicals. Furthermore, the expansion of desalination facilities to fulfill rising water demand is also a major driver for the expansion of the New Zealand RO membrane biocide market.

The New Zealand RO Membrane Biocide market is prominently influenced by many market-driven factors. For instance, RO membrane biocide finds wide application in the food & beverage industry as pure water is consistently needed in this industry and any microorganism growth during any process involving water.

Market Segmentation

Furthermore, according to MRFR analysis, the RO membrane biocide market has been segmented based on end-use industry into agriculture, food & beverage, semiconductor, seawater, sewage, and others. The food & beverage industry segment is poised to grow at a healthy CAGR of 9.61% between 2022-2030.

Out of the region considered in New Zealand, North Island accounted for the largest market share of 55.93% in 2021, with a market value of USD 4.19 million; it is expected to register a CAGR of 9.04% during the forecast period. It is followed by South Island, which accounted for the second largest market share in 2021, valued at USD 2.70 million; it is projected to register a CAGR of 8.42%. The dominance of North Island is mainly attributed to the most aggressive growth in the end-user industries such as food processing, desalination, and sewage treatment which are poised to grow at a healthy CAGR during the forecast period.

Major Players

Ecolab, A S Harrison & Co Pty Limited, Hydroflux, Ixom, Karina water, Visentia Limited, and Fontis New Zealand Ltd. are the major companies in the market.
