Report description:

Consumer electronics in Turkey is registering weaker retail volume growth in 2023, compared to 2022 levels, with sales of headphones, wearable electronics and wireless speakers the main driver of volume sales. The year 2023 is proving difficult for the country and its citizens due to the economic crisis and the devastating earthquake that hit the country in February 2023. With inflation remaining at extraordinary levels, consumers can either no longer afford to buy consumer electronics or are ch...

Euromonitor International's Consumer Electronics in Turkey report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Computers and Peripherals, In-Car Entertainment, In-Home Consumer Electronics, Portable Consumer Electronics.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Consumer Electronics market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
