Report description:

Headphones is expected to register double-digit volume growth in 2023 and is expected to be the best performing consumer electronic in 2023. This growth is solely driven by increased volume sales for TWS earbuds, with volume sales expected to fall for both wireless headbands and earphones. That being said, there is still some demand for wireless headbands for work purposes. For instance, Logitech launched a wireless headband in 2023 in retail channels, as it looked to leverage its success in B2B...
