Report description:

During 2023, wireless headbands continued to experience strong volume growth despite the overall weakness in demand for consumer electronics overall. The combination of low ownership rates and the rapid adoption of wireless headbands have created an environment that is highly conducive to positive sales growth in the category, even against the background of consumer belt tightening due to high inflation and economic uncertainty. The increasing consumer interest in wireless headbands can be attri...

Euromonitor International's Headphones in USA report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
