Report description:

Digital cameras continued their downward spiral in 2023, as smartphones served the needs of most casual and amateur photographers. Most consumers are satisfied with the quality and features of smartphone cameras, alongside their convenience, particularly as they carry their smartphones around. Moreover, smartphone manufacturers are aware of the opportunities presented by camera technology and place a great deal of effort into upgrading their cameras, with superior lenses and other features, with...

Euromonitor International's Imaging Devices in Canada report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
