Report description:

Retail volume sales of imaging devices are in long-term decline in Mexico, as local consumers are increasingly happy to use their smartphones to take photos and record video. The image quality of smartphones is steadily improving, with many of the latest models sporting two, three or more lenses (usually including a standard lens, a zoom lens and a wide-angled lens). Therefore, many consumers use their smartphones to cover this need instead of purchasing a digital camera or camcorder. As a resul...
