Report description:

In Austria, in-car entertainment is set to see a strong decline in overall retail volume sales in 2023, continuing the fast downward trajectory in demand over the review period. Indeed, in terms of the review period, declines are expected to be the fastest since 2020 in in-car navigation and in-car speakers. One contributing factor was overall increases in prices, which, joined by high inflation and rising costs of food and energy, hindered consumer purchasing power and informed the prioritising...
