- Multiple User License (Global) €2475.00

Report description:

In-car entertainment is expected to register further volume sales declines in 2023 caused by a combination of factors. New cars often have in-built technology. In addition, prices are on the rise due to general inflation, particularly stemming from rising energy prices as a result of the war in Ukraine, and also due to supply shortages of key components, which is also driving up prices. Both these factors are hampering volume growth.

Euromonitor International's In-Car Entertainment in Morocco report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: In-Car Navigation, In-Car Speakers, In-Dash Media Players.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?
