Report description:

Retail volume sales of portable players increased in 2023, thanks to better economic conditions, which impacted positively on discretionary consumer spending. Wireless speakers were the key beneficiary of this trend, with a growing demand for these products offsetting a continued decline in sales of portable media players. Thanks to the ubiquity of smartphones, tablets and laptops, consumers now have access to a wide range of music and video streaming services, such as Apple Music, and as such,...
